The Living Message of Christ

The Truth of the Living Word, Jesus, the Savior of the World

Do You Believe in Prayer?

Many people have become accostomed to trying to figure things out for themselves before calling on Me for help. They have become fond of trying to make their way out of every situation alone, and only turn to Me when all else fails.

But I urge you to make Me your first option whenever you face anything in life. Ask Me for help before calling your spouse or best friend. Make it a habit to pray, even about things you consider insignificant.

Whenever you hand over a situation to Me in prayer, you will see My hand in it. Don't make a mistake by refusing to call in Me in prayer.

I Hear Every Request You Make to Me....

As a divine being, I am the creator of heaven and earth, omniscient and omnipotent, knowing and hearing everything. My capacity to attend to your needs and desires is boundless. I will never ignore your prayers. I listen to every word you say to Me and hear every request you make. Never believe that I am too busy to notice your voice. Whenever you call I will answer.

Getting Help from Above

I am always here to help you. However, in order for me to help, you must be willing to receive My help. It is like trying to carry a child who does not want anyone to carry them. The stiff shoulders, crying and whining will make the person put the child down immediately. Similarly, I can only help you when you are willing to receive My help.

Your first sign to show that you need help is asking for it. You do not have to shout or wail, just a whisper is enough. Even the voice of your thoughts echoes through heaven, how much more is your heartfelt prayer?

Make it a point to cast all your cares on Me. Do not forget that I care about you, and I will never allow any evil to come near you.
